REPORT OF THE DEPUTY MINISTER.

The Right Honourable

Sir Richard J. Cartwright, G.C.M.G.,

Minister of Trade and Commerce,

Ottawa.

Sir,—The figures herewith recording the commercial activities of the Dominion during the fiscal year ended June 30, 1905, differ only in minor details from those published annually for a number of years past.

While the previous rapid advance has not been fully maintained yet the total trade has fallen below, (and that in appearance only), the highest point reached in the history of the country, (that of the previous year), to the extent of a trifle over $2,500,000, the imports showing an increase in round numbers of $7,600,000, and the exports a decrease of $10,200,000, as shown in statement No. 10 of aggregate trade, pages 26 and 27, where it will be seen that the imports increased materially from France and the United States, were about stationary from the British Empire as a whole, and decreased from Belgium and Germany, with unimportant fluctuations from various other countries—while as regards exports they fell off largely to Great Britain and moderately to Germany and Holland, with a notable increase of over $4,000,000 to the United States.

If, however, the figures given in statement No. 9 are examined, it will be seen that the export of foreign produce to Great Britain was less, by a little over $2,600,000 than in the previous year,—or taking the total exports of foreign produce (same statement) the value was slightly more than $2,000,000 less than those of the previous year, thus indicating that the reduction in the total trade for the year was the result of the smaller value of the foreign produce carried than of that carried in 1903-04.

On itemizing the principal exports it will be seen that grain fell off about $6,100,000, of which wheat alone was over $5,700,000. Other items of breadstuffs while fluctuating moderately show no material change in the aggregate. Butter shows a commendable increase of over $1,250,000, but cheese fell off nearly $4,000,000, bacon and hams over $500,000, whereas under the item of canned meats there is shown an increase of over $1,000,000, the net decrease in provisions being about $2,600,000. There was a marked falling off in apples of nearly $2,000,000; hay over $600,000; clover and grass seed over $800,000: potatoes, $700,000: metals, minerals, &c., an aggregate of nearly $2,000,000.

On the other hand there were increases under the headings of animals, $800,000 fish, $600,000 ; hides, skins, &c., $800,000 ; paper, $650,000 ; wood and manufactures of, $800,000 ; manufactures, N.E.S., $600,000 ; other miscellaneous, $1,300,000 ; cottons, $300,000, with quite a number of smaller items and amounts.

Notwithstanding the heavy falling off in the export of cheese, that article still holds first place, while wheat which the previous year came second has now fallen behind bacon and hams and other hog products, and therefore now ranks as third on the list. From present indications, however, before the close of the year 1905–06, wheat will have regained its former position.

Figures showing Canada's onward march are not necessarily confined to those of imports and exports. There are others of equal significance, notably those referring to banking, including circulation, deposits, loans, clearing house returns, &c., to loan companies and building societies, insurance, both fire and life, post office statistics, railways, shipping, canal, &c., &c. A condensed statement (the first issued in connection with this department's annual report), covering which will be found attached, (page xxv), in connection with which it is curious to note how the general advance in the figures has kept pace with the aggregate trade as shown in the tables of imports and exports, all with only one exception having practically doubled and in some instances far more than doubled in the last ten years,—the one exception being the number of failures recorded with relative liabilities which during the year 1905 shows only 63½ per cent in number and 57½ per cent in liabilities of those of 1896.

Attention is also called to the figures showing the operations of the Grain Inspection Staff, the quantity, grades, &c., inspected, shipped and in store, the number of licensed elevators and their capacity, &c.,—vide pages 750 to 775. In this connection I would call attention to the necessity for an amended scale of Inspection fees. The present fees were established when cars carried only about one half of the present average, that is to say when cars held say about 600 bush, whereas now they hold on an average over 1,000 bush ; yet the fee for inspection has remained unchanged, with the result that the expenditure in connection with the inspection, &c., far exceeds the receipts. The efficient manner in which the work of the Inspection Branch of the department has been carried on during the year is very gratifying.

Figures are given showing the revenue from and expense in connection with the culling of timber, which owing to the different mode now in vogue of manufacturing and marketing are gradually becoming of less importance year by year.

Chinese Immigration. Since the coming into force of the present restriction Act, very few Chinese immigrants find their way into Canada, which, however, does not diminish but rather increases the vigilance necessary in the administration of the Act and in the supervision over those in transit or otherwise exempt, without yielding a compensating revenue.

Bounties.—The statements on pages 775 to 777 show in detail the bounties paid on iron and steel during the year, and notwithstanding the reduced rates payable under

the sliding scale fixed by the Act, the aggregate amount paid during the year increased to the extent of $631,341.32, by reason of the increased production, the rates current during the year having been on pig iron produced from Canadian ore, $2.25, and from foreign ore, $1.50 per ton; on steel ingots, $2.25 per ton; on puddled bars, $2.25 and on articles manufactured from steel, viz.: wire rods, $6, and on steel angles and plates, $3 per ton.

On lead contained in ores mined and smelted, including exported, the figures also show an increase to the extent of $135,018, notwithstanding the gradual increased value of lead in the London market and consequent decreasing rates payable during the last half of the year, the value having fluctuated between £11 11s. 3d. and £13 8s. 9d. and the rates between 75 and 55 cents per 100 pounds. Since the close of the year the London values have increased to a figure which extinguishes, (for the time being at least), the bounty otherwise payable.

Bounty on crude petroleum appears on the list for the first time this year, the amount paid on the quantity produced from the 7th June, 1904, (the date when the Act went into force), together with the small quantity in store on that date, $350,047, represents at one and one-half cents per gallon, 23,336,500 gallons.

The bounty paid on binder twine, that is to say on the Manilla fibre used in the manufacture of such twine, amounted to $13,789, being but a little more than half of the amount paid during the previous year. This bounty is equal to the amount paid as export duty in the Philippine islands on Manilla fibre produced in those islands and used in the manufacture of binder twine in Canada—not however, to exceed three eighths of a cent per pound.

The total amount disbursed by the department as Bounties during the year was $2,234,685, or almost exactly double the amount paid during the year 1903-04.

Mail Subsidies.—Under the heading of Mail Subsidies and Steamship Subventions the usual statement is given showing a very large expenditure, the details of which as regards routes, vessels employed under the various contracts, their sizes, carrying capacity, frequency of trips, distances run, freights and passengers carried, &c., will be as soon as the information can be compiled, published as a supplement to this volume.

The report of the superintendent of commercial agencies hereto attached, shows the results of increased activity in that branch of the department.

Times have changed, and it now has come about that this department which only a dozen years ago started out in a very small way, is called upon for and actually furnishes more commercial information than was given in combined annual reports published or up to that time attainable, notably as regards the tariffs and trade of foreign countries, trade openings, condensed comparative statistics with aggregate figures since confederation, &c., &c.

The usual six months unrevised statement of imports and exports to December 31, 1905, is also attached, from which will be seen the very large advance during those months over corresponding ones in the previous year and clearly indicating larger figures than ever for the fiscal year to end June 30, 1906.

Under existing conditions it may well be assumed that Canada's prosperity and onward progress is now so well assured that for some years to come nothing short universal calamity can cause more than a temporary halt.

Respectfully submitted,

W. G. PARMELEE,
Deputy Minister.

REPORT OF SUPERINTENDENT OF COMMERCIAL AGENCIES.

JANUARY 2, 1906.

W. G. PARMELEE, Esq., I.S.O.,
Deputy Minister,
Department of Trade and Commerce,
Ottawa.

SIR,—I have the honour to present herewith the second Annual Report of the Canadian Commercial Agency Service.

FOREIGN PRESS COMMENTS.

Since the last annual report, this branch of the public service has kept abreast with and contributed not a little to Canada's splendid expansion of foreign trade. It has performed its work with evident satisfaction as has been attested to by the continuous and exhaustive references made to the Canadian Commercial Agents' reports, not only by leading commercial and daily papers in Canada, in Great Britain and in the United States, but by their reports frequently appearing in the official reports issued by the United States Government at Washington.

This success has been due to the splendid work of the Commercial Agents who have at all times zealously endeavoured to add to the efficiency of their respective offices and increase and enlarge the markets for Canadian goods. The worth of their reports has added considerably to the demand for the weekly report, its circulation having increased from 1,000 copies on January 1, 1905 to 1,700 at the present time.

TRADE INQUIRIES.

In the matter of trade inquiries, this branch of the work now handled in the weekly report has grown to be a work of very considerable magnitude. The following table for the calendar years stated, shows conclusively the value of this feature of the commercial agency work.

TRADE INQUIRIES RECEIVED.

Statement showing the number of trade inquiries received at the Department of Trade and Commerce from Commercial Agents and other foreign sources, and published in departmental reports during the calendar years 1898 to 1905 (inclusive).

Years.	No.	Monthly Average.
1898	19	1·58
1899	167	13·91
1900	390	32·50
1901	319	26·58
1902	330	27·50
1903	470	39·16
1904	566	47·16
1905	819	68·25

TRADE INQUIRY ADDRESSES FURNISHED.

Statement showing the number of foreign addresses to trade inquiries furnished to readers of the reports of the Department of Trade and Commerce for the same period as above.

Years.	No.	Monthly Average.
1898, Quarterly report published	0	
1899, Monthly " "	5	
1900 " " "	90	7·05
1901 " " "	79	6·58
1902 " " "	134	11·16
1903 " " "	151	12·58
1904, Weekly report published	1,164	97·00
1905 " " "	2,985	248·75

The reason for the above statements showing that apparently more addresses were furnished correspondents than were received during 1904 and 1905, is by reason of the fact that some of the same addresses may be furnished to many interested applicants. The demand for addresses, as will be seen, has been greatly increased since the beginning of the publication of the Weekly Report in February, 1904.

These statements only contain those inquiries which have been published, and interested firms found directly through the mediumship of departmental reports. The inquiries received and replied to in the ordinary correspondence of the department are not included in the above statements.

EFFECT OF THE SYSTEM ADOPTED.

The far reaching effect of the system adopted in the handling of trade inquiries has resulted in gratifying proof of its thoroughness. Some firms in Great Britain have written to have their names taken off the list, as their requirements have been supplied. Others have stated that they have been 'inundated with letters from Canada,' by reason of their inquiry appearing in the Weekly Report. Another correspondent in Great Britain stated: 'Your treatment of such matters is quite refreshing. I have never had an experience of the kind before, and cannot help writing to express my appreciation. If other branches of the empire were acting in the same manner it would be a great thing for the commerce of this country.'

Many firms in Canada also have written to this Department unsolicited, referring in the highest terms to the results they have obtained in forming profitable business connections with foreign firms directly through the trade inquiries published in the Weekly Report.

The simplicity of the system is its strength. All Commercial Agents, when in receipt of trade inquiries, forward the same under their own number to the department, and the inquiries are published under a departmental number in the Weekly Report. Persons in Canada requesting addresses of the same obtain them by return mail, upon application to the Department. When an address is furnished a correspondent in Canada, the Commercial Agent is promptly advised, so that he can notify his client of the name and address of the interested party in Canada; thus completing, as it were, the chain of business connection.

INCREASING THE CIRCULATION OF WEEKLY REPORT.

Every effort has been made to increase the circulation of the Weekly Report as extensively as possible by means of circulars and otherwise. The report is not mailed to any one when not so requested for such indiscriminate distribution has not only been found injudicious, but useless. Every means, however, has been adopted to bring the Weekly Report to the attention of all those who might be interested, and a request for the report is all that is necessary to have the applicants name placed, without charge, upon the mailing list. Such request is considered sufficient evidence of interest to send the Weekly Report regularly, and the mailing list, therefore, is not filled with unnecessary names and with few, if any, readers who are not directly concerned in the trade and commerce of Canada.

AGENTS' VISITS TO CANADA.

Certain criticism in the past has been directed towards the Department for not recalling its Commercial Agents to visit Canada from time to time. During the past year, however, Mr. Larke, who for nine years has been Canadian Commercial Agent at Sydney, Australia, was given permission to return to Canada, and an opportunity given him to make a tour throughout the whole of the Dominion. He addressed Boards of Trade and other associations with very great success; he was also provided with an office and was present during the exhibition held in Toronto, where he had daily consultations with firms interested in Australian trade. A number of firms addressed letters to the Department expressing their approval of the policy of recalling the agents for the purpose of visiting the business centres of Canada, and arrangements will doubtless be made in future to permit others of the Commercial Agents to return to Canada for the same purpose.

LECTURES BY COMMERCIAL AGENTS.

Another feature introduced into the work is that of providing the Commercial Agents with lantern slides illustrating the various cities of Canada, to be used in lecturing. Circulars were sent to all the large cities of Canada requesting that sets of slides be provided for this purpose, but as yet only Toronto, Hamilton, London and Winnipeg have furnished the slides; Hamilton showing special enterprise and interest in this matter.

SECRET TELEGRAPH CODE.

The more important of the Commercial Agents have been furnished with a copy of a special secret telegraphic and cable code, which materially decreases the cost of cabling messages while ensuring secrecy.

SOME CAUSES FOR COMPLAINT.

The undersigned had occasion to comment last year somewhat severely upon the complaints received from Commercial Agents with reference to export methods, packing of goods, indifference to correspondence, goods not being up to sample, &c., upon the part of Canadians doing business abroad. Shortly thereafter, one of the most influential Boards of Trade in Canada suggested that Commercial Agents should not be so prone to complaining of Canadian business methods. Instructions were promptly sent, however, to the agents to avoid 'arm chair criticism' but to continue to report facts whenever they were presented. The general criticism has since been less frequent and the number of specific complaints have also been less numerous. Last year only the worst cases were referred to and they made a formidable array of evidence damaging to

the reputation of Canada. This year all the specific charges made by Commercial Agents are referred to, and though some are severe, on the whole there appears to have been less cause for direct complaint.

UNRELIABILITY OF BUTTER FROM CANADA.

Mr. Edger Tripp, Commercial Agent to Trinidad, in his report of June 5th (see Weekly Report, No. 74, page 16), says: '£33,506 worth of butter was imported, of which from Canada, £1,180. At the risk of incurring blame for repeating disagreeable facts, I am compelled to state after careful inquiry that this is due to unreliability as to quality and to defective packages.'

COMPLAINTS AGAINST SHIPPERS.

Mr. J. S. Larke, Commercial Agent to Eastern Australia and New Zealand, writing from Sydney under date April 17th (see Weekly Report No. 71, page 9), says: 'The usual crop of complaints have reached me this month. One is in reference to the old complaint of improper packing. A number of machines were ordered with definite instructions as to how they were to be packed. In due course an invoice was received with a covering letter stating that the instructions respecting packing were absurd, that they had made a study of it and had shipped in the manner they had found to be right. When the goods arrived half of them were found to be broken. Had the instructions sent been followed, the loss would have fallen upon the buyers, but under the circumstances it must fall on the shipper. It must be borne in mind that while Australians may occasionally make mistakes in their directions, they have had a much greater experience in the requirements for long ocean voyages than the majority of Canadians, and their instructions are based upon this experience.

'Another is the refusal to meet the market. A Canadian manufacturer was assured of a good trade in boots and shoes if he changed his shape a little. He declined to do so.

'In another instance an article was getting fairly introduced with excellent prospects before it, but it was cutting into the trade of a United States manufacturer. The latter launched into liberal advertising, and not only regained his trade, but now has a very large share of it. The Canadian firm refused to expend any money in this way and has lost his trade, though his goods were right and his prices below the successful rival. Buyers admit this, but say people ask for the other and we must sell what they want.

'In one instance a failure was due to shipping goods made of inferior material and much below samples. In another case, it was a refusal to reduce prices when others did so. In some of these instances this state of things was accompanied by sharp comments upon the incapacity of the agent, as otherwise he would have secured a large trade. In some cases this is undeserved, as the agents have done their best.'

DELAY IN CORRESPONDENCE.

Mr. Larke, under date of January 24th (see Weekly Report No. 58, page 5,) states: 'I have again had complaints of failure on the part of Canadian firms to reply to inquiries promptly, even where the Canadian house had initiated correspondence. Arrangements for trade seemed to have gone on satisfactorily when communications suddenly cease without explanation, perhaps, to be renewed nine months or a year afterwards.'

F. O. B. SEABOARD PRICES.

Mr. G. E. Burke, Commercial Agent to Jamaica, under date of May 15th says: (see Weekly Report No. 71, page 13.)

'I have often, through these reports, brought to the notice of the manufacturers of Canada who may be desirous of finding an outlet for their goods in this market, the absolute necessity of always quoting f.o.b. seaboard. Invariably when this is not done dissatisfaction as to intercharges is the result, and no further orders forwarded.

'I have recently had the opportunity of seeing an invoice for paper from Montreal amounting to $40, in which the freight charges from Halifax hence was 14s. 1d. as against 18s. 9d. as between Montreal and Halifax. Again, in an invoice of goods from London, Ontario, the sea freight was £3 9s. 6d. and charges £3 19s. 3d.

'No doubt the heavy railway rates are responsible for this, but indentors are not accustomed to such charges in the case of goods coming from the United States and otherwise, the same being always included in quotations in the first instance, thus always setting the importer right as to what he may expect to be the landed cost of his venture. With the repeated surprises referred to above, business with Canada is seriously prejudiced.'

CARELESS SHIPPING.

Mr. P. B. Ball, Commercial Agent to Birmingham, England, under date April 1st, says: (See Weekly Report No. 65, page 3.)

'In my report of March, 1904 (Weekly Report No. 10), I drew attention to the carelessness very usual in shipping butter from Canada. One can hardly understand the dealers of Great Britain, who purchase such enormous quantities, paying so much attention to minor matters; but it is the small things that count in Great Britain. All countries except the United States and Canada pay special attention to these small matters.

"It is not with the quality of Canada's well-packed and well-made butter that fault is found, but with the lack of uniformity in quality. A dealer will get one shipment under a certain brand and it is particularly good; he gets the price and is thoroughly satisfied with it, and opens up a regular trade; the next shipment comes, marked with the same brand, but a comparison with the former shipment is quite impossible. There would be a difference in the salting, colour, and other points, and it can be readily understood how detrimental to trade such a procedure is.'

A BUTTER COMPLAINT.

Mr. Alexander MacLean, Commercial Agent to Japan, (see Weekly Report No. 51, page 9), states:

'The complaint is not of the butter, which is of excellent quality. A well-known mercantile firm here have a contract with a dairy in North-western Canada to supply 100 boxes of creamery butter, to arrive by the first Empress steamer every month, for six months, beginning with September. The September and October shipments came on time, but not that of November, which defaulted entirely. The firm was sold out of butter a few days after the expected arrival of the November supply for 'Canadian Creamery' does not remain long in stock if the supply is not kept up.

'It is very aggravating to a dealer, when he has taught his customers to rely upon him for a good article, to find his supply failing him. To keep going the firm had to resort to Australian butter, which they can always get, but which their customers do not prefer. To-day, December 8, the *Athenian* has arrived with the 100 boxes, this month's quantity; or, if the November quantity, it is a good month behind time. Then, although the *Athenian* brought the butter, it did not bring the papers required by the

customs and the shipping agents. It is more satisfactory to be able to add that the butter supplied under this contract is excellent. The trouble seems to be to get enough of it and to get it promptly.'

INQUIRIES WITHOUT CATALOGUES.

Mr. Larke, further writing from Sydney, (see Weekly Report No. 54, page 7), says :

'Every mail brings inquiries respecting the possibility of finding a market for Canadian goods, but commonly neither catalogues nor prices, and still more rarely samples and discounts. As a consequence it is almost impossible to get a good firm interested and then there is a delay of three months waiting the necessary information.'

LACK OF INTEREST AMONG CANADIANS.

Mr. A. W. Donly, Commercial Agent to Mexico, under date of January 30, (see Weekly Report No. 56, page 5), states :

'This being the case, it is greatly to be lamented that Canadian exporters and importers are not more interested in studying thoroughly the mutual necessities of both countries with a view to the creation of a trade in this, to them, new field. From correspondence that I have seen from Canadian houses, upon different subjects, one would be led to believe that Mexico were situated in a different planet than Canada, and that the difficulties in the way of trade were as great as though such were the case. There seems to exist among Canadians a general apathy in regard to trade extension so far as Mexico is concerned. Again, some consider Mexico a barbarous country and unworthy their attention, while others would like to sell their wares here but are unwilling to pay any commissions to local agents, and expect buyers to remit in advance for goods of which they have not even seen samples. It would seem as though too much prosperity in recent years had been responsible for an enervating effect.'

COMPLAINT AGAINST APPLE SHIPPERS.

Mr. MacKinnon, Commercial Agent to Bristol, England, under date of January 31 states (see Weekly Report, No. 56, page 8) :

'In this connection it will not be amiss to point out that serious complaints have been made by dealers who happen to want the "Golden Russet," and nothing else, that they have had other varieties somewhat similar in character, shipped to them under that name. This practice, though by no means general, has the regrettable effect of tending to destroy confidence in one of our most popular varieties for the late season trade, and one which, in the Midlands especially, always commands a good price.'

IRREGULARITY OF CANADIAN SHIPMENTS.

But not always can the blame of irregularity in shipments be laid at the door of the Canadian shipper, for frequently it rests upon the railway or steamship companies. Last July, Mr. Ball, in a report (see Weekly Report, No. 79, page 60) says :—

'In interviewing numbers of importers of Canadian products, such as flour dealers, oatmeal dealers and others, I find a great deal of feeling as to the manner in which shipments are made from Canada, more especially their irregularity. It seems that it particularly affects shipments from Canadian ports, such as Montreal. When all the ports are open, it is not the same, but it is particularly noticeable when Montreal opens up in the spring, and the railroad agents are all trying to make contracts to ship via Montreal. Large contracts are entered into, and shippers forward their goods. One lot

may be shipped at once, and will probably reach its destination in a month, but very often it happens that there may be a rush of goods, and they do not reach their destination under three months, and sometimes longer. When the manufacturers were here, I made several inquiries from large shippers as to this, and they stated such was the case.

'I have heard men state that until the Canadian exporter can guarantee a greatly reduced period of time between shipment and arrival, shipments will cease entirely. In trying to find out the cause of these irregularities, it seems that the first goods arriving are put into the warehouses, and if the ship is filled by later arrivals, the goods first received remain behind, and new goods coming in continually may be packed on top of them, instead of there being a routine method of 'first come, first served.'"

CHARGES INVESTIGATED.

This charge was taken up directly with Mr. Ball, to learn if possible the exact facts and the responsibility placed where it properly belonged. No satisfactory conclusion could be reached by reason of the Canadian shippers being loath to antagonize the transportation companies by furnishing information.

The information obtained, however, from other sources, partly relieved the steamship companies. One firm, writing to Mr. Ball, stated :—

'The facts are these: The sellers in Canada, directly they receive an order, instead of seeing the goods promptly put on rail and rushed to the steamers at seaboard, they put on rail, issue a bill of lading and sign and date it at the time, instead of seeing it put on board and then signing it. The result is that the goods are hung up somewhere and frequently the draft matures before goods leave Canada.'

DIFFICULTIES WHICH CONFRONT AGENTS.

Difficulties from time to time have confronted the Commercial Agents in the performance of their duties in many of which it is impossible for the government to either interfere or endeavour to overcome. For instance, Mr. McKinnon reported in departmental correspondence that a well-known firm in Canada during the summer sent him samples and asked him to submit them to firms interested in their goods (opaque window shade cloth) in Bristol Later on in the year, after Mr. McKinnon had obtained some interested firms, the same firm wrote to Mr. MacKinnon, as follows :—

'We find that we will be unable to do any business in England this year, owing to our output being entirely sold for the following six months. At a later date we might take the matter up with you.'

This is but an instance of similar unfortunate cases reported and which are very discouraging to the commercial agents.

GOODS NOT UP TO SAMPLE.

One alleged case of goods not being up to sample has been occupying the attention of the department for some months. The case was reported in departmental correspondence by Mr. Ross, of Melbourne. It is that of a large well-known Australian importing house who make claim from an important Canadian firm of exporters for a considerable amount by reason of an alleged inferior quality in a certain shipment of goods. Mr. Ross, before reporting the matter to the department, wrote to the Canadian exporter and he refused to adjust the account. A friendly letter was addressed, therefore, by this department to the Canadian exporter, seeking to have a compromise effected. By reason of this appeal the Canadian exporter offered to make an allowance, stating further :—'More than this I will not make, and I refuse to have anything further to do with the goods.'

The allowance offered was one-seventh of the claim made. The Australian firm stated that the offer was scarcely worth considering. Mr. Ross took the matter up again directly with the Canadian house, but his letters were not replied to. The Australian firm thereupon wrote to Mr. Ross, stating:—'We have given up all hope of receiving fair and honest treatment from ————,' and stated further that they would be 'extremely careful in future when taking up any further business matters with Canadian manufacturers.'

The matter, however, is still the subject of correspondence with Mr. Ross and a concise report upon the case may be published later.

I have the honour to be, sir,

Your obedient servant,

F. C. T. O'HARA,
Superintendent of Commercial Agencies.

COINAGE, WEIGHTS AND MEASURES

To assist in arriving at a comprehensive understanding of the value of foreign currencies, weights and measures (as expressed in foreign trade returns, tariffs, &c.,) as compared with those of Canada, tables have been prepared as follows:—

As regards those of Canada, the law provides that the denominations of money in the currency of Canada shall be dollars, cents and mills, the cent being the one hundredth part of a dollar, and the mill one-tenth part of a cent.

That—The currency of Canada shall be such that the British sovereign (the pound sterling) of legal weight and fineness, shall be equal to four dollars eighty-six cents and two-thirds of a cent.

In like manner the law provides as respects weights, that the unit shall be the standard pound (avoirdupois) of 7,000 grains, one-sixteenth part of the standard pound shall be an ounce (437½ grains) one hundred pounds a cental, and two thousand pounds a ton, and that four hundred and eighty grains shall be an ounce troy, or 5,760 grains a pound troy.

As regards measures—that the unit or standard measure of capacity, as well for liquids as for dry measures, shall be the gallon containing ten standard pounds weight of distilled water weighed with the water and air at a temperature of sixty-two degrees Fahrenheit, with the barometer at thirty inches, that the quart shall be one-fourth part of the gallon, and the pint one-eighth part of the gallon, and that eight gallons shall be a bushel.

This gallon commonly known as the 'Imperial Gallon,' contains 277·274 cubic inches, or 353·036 cylindrical inches.

The standard measure of length is the yard, one-third part of which it is provided shall be a foot, and the twelfth part of such foot shall be an inch.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word 'Metric' being used in the general table in each case where the system is in vogue, as indicating a reference to that table.

The equivalent value of the monetary unit can only be given as respects those countries having a gold standard. Where silver is the standard, the value of the currency necessarily fluctuates correspondingly to the market value of silver bullion, and were any attempt made to quote the value of such currency it would, under present circumstances, be misleading, therefore, the weight in decimal parts of an ounce with the fineness of the coin is given instead, which will enable any one to approximate the value of the currency according to the current value of fine bar silver. As an example, say fine bar silver at 75 cents an ounce, the Bolivian dollar weighs ·801 of an ounce, its fineness is ·900, therefore 75 × ·801=60·075 which × ·900=54·0675, or a small fraction over 54 cents, and the actual intrinsic value of the pure silver contained in the coin, to which should be added a reasonable allowance to cover the value of the alloy, the cost of the coinage, and in some instances exchange, the aggregate of which would be approximately the current value in Canadian currency of the dollar in question.

Unless carefully noted, the quotations as usually given of the current value per ounce of silver may be misconstrued and lead to misapprehensions, as it is sometimes quoted per ounce *fine*, and sometimes per ounce *standard;* thus for instance on a certain day the London quotation reads 'fine silver per ounce standard 32 d.,' while on the same day it is quoted in New York '69½ cents per ounce fine;' as 32 d. is equal to a fraction over 64⅞ cents, there would appear a difference of about 4⅝ cents per ounce between the two prices, the New York price appearing that much in excess of the other, were it not noticed that one is based upon *standard* fineness and the other upon absolute fineness, but by reducing the New York "fine" to London "standard" (of ·925 fine, or 444 grains fine to the ounce) the actual difference between the two quotations is found to be only about ⅝ of one cent per ounce, the London price being that much in excess of the New York.

To reduce the value of *standard* or sterling silver when expressed in pence to *fine* expressed in cents, multiply the pence and decimal parts thereof by 2·192.

To find the *standard* or sterling value expressed in pence and decimal parts thereof when *fine* is expressed in cents multiply the cents by 0·4562.

*Old weights and measures sometimes used. ‡The values in Chinese Imperial Customs Returns are always given in Haikwan taels, which are relatively in value equal to about 1·113 Shanghai taels. The tael is in reality not a standard of value (there is no such coin), but of weight, and when used in the sense of a value it only represents its weight in gold or silver, as the case may be, the real difficulty is to establish its exact equivalent in grains. Authorities differ greatly, as also does the practice in different sections of China. The Chinese are far from being inexact, and the probability is that there exists a standard, and a further probability that it is equal to 10 Japanese mommes, or 579·72 grains, which figures have been used in computing the value as above. It will be observed, however, that these figures fall short about 3·61 grains from the weight usual (say 1⅓ oz. per tael) in dealing with the weights other than those of gold and silver. §Usually reckoned same as Chinese Picul of 133⅓ lbs. ϕ This is long measure. Cloth measure is 25% greater in length than long measure. Therefore by cloth measure 1 sun=1·4916 in. 1 shaku = 14·916 in. and 1 jo = 149·6 in.

TABLE of constant Factors, which multiplied by the current value per ounce of silver, either pure or standard as the case may be, will give the value of the silver contained in the coin referred to, to which if there be added a small percentage to cover the value of the alloy and the cost of coinage, the aggregate will equal the then intrinsic value in Canadian currency of the coin in question.

Terminals.

The three largest Terminal Elevators have a capacity of 3,500,000, 3,000,000 and 3,162,000 bushels respectively. The first two are owned and operated by the Canadian Northern Railway at Port Arthur, Ontario, and the third is owned and operated by the Canadian Pacific Railway at Fort William, Ontario.

Country Elevators.

Of the 967 elevators in Manitoba and the new Provinces of Saskatchewan and Alberta, two have a capacity of 250,000 bushels; two 150,000 bushels; one 125,000 bushels; one 108,000 and five 100,000 bushels. The balance run all the way from 3,000 up to 90,000, but the bulk of them are of 25,000 and 30,000 bushels capacity.

Exclusive of the eleven Elevators that run from 100,000 upwards, the average for the remaining 956 would be 27,880 bushels.

Warehouses.

The 46 warehouses run from 3,000 up to 15,000 and have an average capacity of 6,650 bushels. These warehouses are being gradually reduced in number and are 18 less than the previous year.

Increase in Capacity.

Of the total increase in capacity for 1904–5, viz., 5,767,630 bushels, 4,490,000 is accounted for by the Ontario Terminals and 1,277,630 by Country Elevators and Warehouses.

While there has been an increase all around in the different kinds of licenses issued it will be noticed that there is a marked increase in the number of Track Buyers' Licenses.

The fact that all license holders have to give bonds, is a great measure of security to the grain growers.

It must serve to convey in a small degree, what immense results will follow the large influx of population into that vast country.

(*a*) The returns of the Exports to Norway in the years 1898-1901 are incomplete, owing to the abrogation in 1898 of the special law (Mellanriholagen) regulating the trade between Sweden and Norway. In 1902, however, complete returns of rail-borne Exports to Norway have been obtained.

EXPLANATIONS AS REGARDS THE SERVICES RUN OR BEING RUN DURING THE YEAR TO JUNE 30, 1906. AND OF THOSE IN CONTEMPLATION FOR THE NINE MONTHS TO MARCH 1907.

NOTE.—The numbers following correspond with those of the votes in the estimates as above.

145.

The service as at present run is under terms of a contract entered into with Messrs. H. & A. Allan, as representing the Allan Line Steamship Company, Limited, bearing date November 2, 1903, and which expires on August 1, 1906. The principal provisions inter alia are as follows:—

1. 'The contractors owning or controlling in their capacity aforesaid the steamers *Bavarian, Tunisian, Ionian* and *Parisian,* together with two steamers in course of construction of guaranteed seventeen knot effective speed, one of which is to be delivered and ready to commence running on the service hereinafter described during the month of August next following the date of these presents, and the second one on or before the opening of navigation on the River St. Lawrence in the spring of the year one thousand nine hundred and five, will with the assistance, until the aforesaid seventeen knot steamers are ready for the service and at such times thereafter during the winter season as may be necessary, of the steamers *Ionian, Corinthian, Sicilian* and *Pretorian,* or such of them as are necessary for the effectual running of the service in manner hereinafter set forth, run a regular weekly service between Canada and Great Britain from the opening of navigation on the said River St. Lawrence in the month of April. one thousand nine hundred and four, until the first day of the month of August, one thousand nine hundred and six, unless sooner terminated under the provisions of section nineteen hereof.

2. 'The service herein agreed on the part of the contractors to be performed shall be run between the port of Liverpool in England, and during the season of open navigation on the River St. Lawrence, the port of Quebec in Canada, with the option on the part of the contractors of continuing each west bound voyage to the port of Montreal, and during the season of closed navigation on the said River St. Lawrence between the said port of Liverpool and excepting as hereinafter provided the port of St. John in the province of New Brunswick; one of the said steamers sailing from Liverpool each Thursday for Quebec or St. John as the case may be, calling at Moville in Ireland for the embarkation of the mails, and at Rimouski in the province of Quebec when en route to Quebec or at Halifax in the province of Nova Scotia when en route to St. John, for the landing of such mails; and sailing on all east bound voyages on each Saturday, and when from Quebec calling at Rimouski aforesaid or when from St. John at Halifax aforesaid, for the embarkation of the mails, and at Moville for the landing of the same; it being understood and agreed that if from any cause it should prove impossible for the steamers running the service to secure sufficient cargo at St. John aforesaid during the winter season, the minister may in his discretion relieve them from the obligation of starting from or proceeding to that port.

3. 'The contractors bind themselves to run the steamers hereinbefore referred to in respect of the time to be occupied in performing the several voyages from port to port as follows, viz.:—Between Moville and Rimouski and vice versa by the seventeen knot steamers during the summer season, i.e., between the first day of June and the first day of November in each year covered by this agreement, in six days, and during the balance of the season of open navigation and between Moville and Halifax and vice versa, in six and one-half days; and as regards the *Tunisian* and the *Bavarian,* the time occupied during each summer season as above defined shall not exceed seven days and during the balance of each year seven and one-half days; and as regards the other steamers employed on the service, the time occupied during each summer season as above defined, shall not exceed seven and one-half days, and during the balance of each year eight days. It is understood and agreed to be a condition of this contract that if, during any quarter as hereinbefore specified, the mails shall not be conveyed from Rimouski or Halifax as aforesaid to Moville, or from Moville to Rimouski or Halifax, within the average time stipulated for each of the three classes of steamers (the two seventeen knot steamers, the *Tunisian* and *Bavarian,* and the other steamers, the *Parisian, Ionian, Pretorian* and the *Sicilian*), then and so often as the same shall happen, there shall be deducted from the subsidy which but for this provision would be payable to the contractors for the said quarter, a sum equal to one per cent of such subsidy for every hour by which the average time actually occupied in the conveyance of such mails shall have exceeded the average time of transit stipulated for in this contract; provided however, that the total amount of the sum deducted in respect of such default or failure, as hereinbefore mentioned in the delivery of such mails, shall not exceed the full sum allowed for the quarter or period in question. It is further understood and agreed that each of the seventeen knot steamers, as well as the *Bavarian* and *Tunisian*, shall make at least ten complete round voyages during each twelve months.

4. 'It is understood and agreed that each steamer while run under this contract shall be fitted with adequate cold storage accommodation to the satisfaction of the minister.

5. 'Subject to the further conditions, stipulations and reservations herein provided. His Majesty for himself, his heirs and successors covenants with the contractors, their successors and assigns, that the contractors and their successors well and faithfully performing all and every the covenants and stipulations herein on the part of the contractors set forth and contained, he will well and truly pay or cause to be paid to the contractors, their successors or assigns, a subsidy at the rate of two thousand pounds (£2,000) for each full round voyage between Liverpool and Quebec and return or between Liverpool and St. John and return, run by the seventeen knot steamers; and one thousand pounds (£1,000) for each similar round voyage run by the *Bavarian* or *Tunisian*; and for each round voyage of the *Parisian, Ionian, Sicilian* or *Pretorian* when so employed between Liverpool and Quebec and return, at the rate of five hundred pounds (£500), and when so employed between Liverpool and St. John at the rate of seven hundred and fifty pounds (£750); but the minister may in his discretion make a reduction in the amount of subsidy payable in the event of any voyage beginning or ending at Halifax instead of at St. John as provided under section one of this agreement, such reduction, however, not to exceed the proportion which such shortened voyage bears to the whole voyage; such subsidy being payable for all voyages fully run and completed at the end of each quarter, that is, at the close of the months of June, September, December and March occurring during the continuance of this contract: provided, however, that it is the true intent and meaning of these presents that no amount or instalment of subsidy shall be payable or paid at any time, unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to dates of sailing, speed and duration of voyage, have been in all respects faithfully observed

and carried out, according to the true intent and meaning of these presents; and it is a further condition of this contract that the contractors shall on the completion of each voyage furnish the minister with such certified extracts from the steamer's log together with track charts of the voyage as will enable him to determine whether the service on such voyage has been within the requirements of this contract.

6. 'It is understood and agreed that at Rimouski the mails are to be delivered to and received from a tender supplied by the postal authorities of Canada, notwithstanding any provisions in section eight of this contract.

6*a*. 'It is understood and agreed that whenever on any occasion the voyage is not run and completed within the time specified, the contractors shall submit such evidence in explanation of the cause of delay to the minister as will enable him to determine whether the circumstances were such as might be considered a breach of this contract. In the event of any steamer being delayed for reasons beyond the control of the contractors to such extent as to cause her to take longer time in making the voyage than the average called for by the contract, the minister may at his discretion omit the voyage in question in calculating the average for the period in which such delay occurred, or may deduct the period of such delay from the actual duration of the voyage.

7. 'The steamers to be employed as herein specified, shall at all times during the continuance of this contract be fully sea-worthy, well-officered, manned, victualled, equipped, provided and furnished, having regard to the services which the contractors have hereby undertaken to perform; and shall have ample and suitable accommodation for the passengers, mails and freight to be carried over the routes specified; and shall at all times, carry boats and life-saving appliances in compliance with the law, and shall be in all respects subject to the approval of the minister.

8. 'The contractors shall during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf of or under the direction of the postal authorities of Canada or of those at the terminal ports or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal ports or ports of call above referred to; and the expense of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call, shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. For the conveyance of all such mails no payment shall be made or required over or beyond the amount of subsidy herein mentioned or provided for.

19. 'It is declared to be the true intent and meaning of these presents that the minister shall have the right at any time during the continuance of this contract, upon thirty days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and every matter and thing herein contained, if it shall appear to the minister that there has been any breach on the part of the contractors, their successors or assigns, of any of the covenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive.

The *Tunisian* ran regularly up to the close of the calendar year, making in all ten trips.

The *Ionian* ran three trips in all, arriving at Halifax on January 27, March 13, and at Rimouski on May 1.

The *Parisian* ran seven trips, arriving at Halifax on January 15, February 18, March 25; at Rimouski on September 24, October 20; at Halifax on November 19 and December 24.

The *Corinthian* ran three trips, arriving at Halifax on January 8, February 14 and December 18.

The *Sicilian* ran three trips, arriving at Halifax on January 23, February 28 and November 25.

The *Pretorian* ran one trip, arriving at Halifax on February 5, 1905.

It will therefore be seen that, of the 51 trips run during the calendar year, the two so-called 17-knot steamers, *Victorian* and *Virginian*, ran but 15 trips, or rather 14½. The *Bavarian* and *Tunisian* ran 19, or rather 18½; while the smaller boats made 17 trips.

The number of passengers carried by the vessels run in the service during the calendar year ended December 31 last, was:—First-class, 4,014; second-class, 11,660; third-class, 31,242—west bound. On the east bound trips—first-class, 3,122; second-class, 4,339; third-class, 8,386. Total passengers carried, 62,763.

The amount of freight carried during the same period was :—West bound, 78,167 tons; east bound, 136,825 tons.

The distance between Moville and Rimouski via the Straits of Belle Isle is taken at an average of 2,300 miles; between Moville and Rimouski via Cape Race, 2,500 miles, or it may be somewhat more if the vessels are forced south to avoid ice. The distance between Moville and Halifax—ordinary average—2,255 miles, or it may be somewhat increased if the vessels are forced south to avoid ice.

The total distance actually run during the calendar year, as shown by the ships' logs, has been 250,052 miles.

The subsidy that would have been earned during the calendar year had the service been fully performed as required by the contract, is $296,866.66.

The amount so far actually paid, after making deductions under clauses 3 and 5, and for not calling on all voyages as required at Moville—is $263,274.49.

The terms of an agreement made with Messrs. H. & A. Allan, as agents for and representing the Allan Line Steamship Company, Limited, bearing date January 19, 1906, in addition to those common to all contracts, are as follows:—

1. 'The contractors owning or controlling in their capacity aforesaid the steamers *Virginian* and *Victorian,* each of guaranteed seventeen knots effective speed, and other steamers which may be approved by the minister, and being about to contract for the construction of two other steamers of guaranteed eighteen knots effective speed, to be delivered and ready to commence running on the service hereinafter described on or before the first day of August, 1907, will, on the first day of August, 1906, commence to perform and thereafter will carry on the service hereinafter described, that is to say, a regular weekly steamship service between Canada and Great Britain until the first day of May, 1912, unless sooner terminated under the provisions of section 28 hereof.

2. 'Until the said eighteen knot steamers are ready to commence running, the service shall be performed by the steamers *Victorian, Virginian, Tunisian,* with a fourth steamer equal in effective speed and otherwise to the *Tunisian,* and such other steamers as may be necessary for the effectual running of the service, and as may be approved by the minister.

3. 'The contractors agree to build and place in the service by August 1, 1907, two steamers guaranteed to develop twenty knots on their trial trips on the measured mile, and of guaranteed eighteen knots effective speed.

4. 'The steamers *Victorian, Virginian, Tunisian,* with a fourth steamer equal in effective speed and otherwise to the *Tunisian,* and such other steamers as may be approved by the minister shall, until the two eighteen knot steamers have been placed in the service, perform ten complete round voyages per annum each, and after the two eighteen knot steamers have been placed in the service, they and the *Victorian* and the *Virginian* shall each perform ten complete round voyages per annum.

5. 'Subject to the further conditions, stipulations and reservations herein provided, His Majesty for himself, his heirs and successors, covenants with the contractors, their successors and assigns, that the contractors, their successors or assigns, well and faithfully performing all and every the covenants and stipulations herein on the part of the contractors set forth and contained, he will well and truly pay or cause to be paid to the contractors, their successors or assigns, a subsidy as follows:

(*a.*) For each complete round voyage between Liverpool and Rimouski or North Sydney, performed at the rate of eighteen knots per hour, £2,500 pounds sterling.

(*b.*) For each complete round voyage between Liverpool and St. John or Halifax, performed at the rate of eighteen knots per hour, £3,000 pounds sterling.

(*c.*) For each complete round voyage between Liverpool and Rimouski or North Sydney, performed at the rate of seventeen knots per hour, £2,000 pounds sterling.

(*d.*) For each complete round voyage between Liverpool and St. John or Halifax, performed at the rate of seventeen knots per hour, £2,500 pounds sterling.

(*e.*) For each complete round voyage performed at the rate of fifteen knots per hour, £1,000 pounds sterling.

'Such subsidy being payable at the end of each quarter for all voyages fully run and completed during each quarter, that is, at the close of the months of September, December, March and June, during the continuance of this contract; provided, however, that no amount or instalment of subsidy shall be payable or paid at any time unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to dates of sailing, speed and duration of voyages, have been in all respects faithfully observed and carried out according to the true intent and meaning of these presents; and it is a further condition of this contract that the contractors shall, on the completion of each voyage, furnish the minister with such certified extracts from the steamer's log, together with track charts of the voyage, or any other information required, as will enable him to determine whether the service on such voyage has been within the requirements of this contract.

(*a*) 'Provided always, that at no time during the continuance of this contract, except for thirty days between any fifteenth day of December and the follow-

ing fifteenth day of February, shall more than two vessels of the seventeen and eighteen knot class be withdrawn at the same time from the service hereinbefore described.

6. 'It is further understood and agreed that the service to be performed during the season of closed navigation on the St. Lawrence shall be as follows:—

'Between the port of Liverpool and the ports of Halifax and St. John, one of the said steamers sailing on each westbound trip from Liverpool each Thursday, or on such other day as may be approved by the minister, for Halifax and St. John, and calling at Moville for the embarkation of the mails, if the call at that port be adhered to, and at Halifax for the landing of such mails; and one of the said steamers sailing on each eastbound trip from St. John each Saturday, or on such other day as may be approved by the minister, for Liverpool, calling at Halifax for the embarkation of the mails, and at Moville for the landing of such mails, if the call at that port be adhered to; it being understood and agreed that if from any cause it should prove impossible for the steamers performing the service to secure sufficient cargo at St. John during the winter season, or if at any season there is inadequate accommodation in the harbour at St. John for any of the said steamers, the minister may, in his discretion, relieve the contractors from the obligation of proceeding to or starting from that port on any particular voyage or voyages.

7. ' It is further understood and agreed that the service to be performed during the season of open navigation on the River St. Lawrence shall be as follows:—

(*a*) 'On all voyages from Montreal and Quebec eastward to Liverpool the steamers shall be at liberty to proceed by way of the Straits of Belle Isle, and upon all such voyages the port of call below Quebec shall be Rimouski for the embarkation of the mails and at Moville (if the Moville call be adhered to) for the landing of the mails.

(*b*) 'On all voyages westward from Liverpool the steamers shall call at Moville for the embarkation of the mails (if the Moville call be adhered to) and shall be at liberty to proceed by way of the Straits of Belle Isle, and on all such voyages the port of call below Quebec shall be Rimouski for the landing of the said mails.

(*c*) 'On all voyages eastward or westward from or to Montreal and Quebec via Cape Race the port of North Sydney may, at the option of the minister, be substituted for the port of Rimouski for the embarkation or landing of the said mails.

8. 'It is understood and agreed that at Rimouski and North Sydney the mails are to be delivered to and received from tenders supplied by the postal authorities of Canada.

9. 'For the purposes of this contract the following shall be understood to be the distances between the points hereinafter mentioned, i.e., between Moville and Rimouski via Belle Isle, 2,300 miles, and between Moville and Rimouski via Cape Race, 2,500 miles, except when it may become necessary for steamers to deviate to the southward to avoid ice, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,800 miles, shall for the purposes of this contract be taken to be the distance aforesaid; and between Halifax and Moville, 2,255 miles, except when it may become necessary for steamers to deviate as aforesaid, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,550 miles, shall for the purposes of this contract be taken to be the distance aforesaid; and between Moville and Sydney, 2,105 miles, except when it may become necessary to deviate as aforesaid, in all which cases the actual number of miles travelled upon the voyage, not exceeding in any instance 2,405 miles, shall for the purposes of this contract be taken to be the distance aforesaid.'

10. 'It is understood and agreed that each steamer while run under this contract shall be fitted with adequate cold storage accommodation to the satisfaction of the minister.

11. 'The contractors bind themselves to run each of the three classes of steamers hereinbefore referred to at the average rate of speed for each voyage as specified in clause 5, in performing the several voyages from port to port, unless in the opinion of the captain of said steamer the said rate of speed would endanger life or the safety of the ship, or unless the speed of the ship is delayed by reason of fog, ice, snow or stress of weather, or by assisting ships in distress, in any of which events the contractors shall submit to the minister the captain's explanation of the cause of the delay, and such other evidence as the minister may require to enable him to determine, and the minister upon such explanation and evidence shall determine whether the circumstances were such as justified the captain's reduction of the speed of the voyage, or sufficiently explain the delay in completing the voyage, and in all cases where such failure to maintain the said average rate of speed is deemed justifiable or sufficiently explained the minister may, in his discretion, omit the voyage in question in calculating the average for the quarter in which such voyage took place, or may deduct the period of such delay in calculating such average.

12. 'If during any quarter the mails carried by the steamers *Victorian* and *Virginian* and the two eighteen-knot steamers are not conveyed from port to port at the average rate of the speeds specified in clause 5 for the said four steamers after omitting voyages and deducting delays as provided in the last preceding clause, or if during any quarter the mails carried by the fifteen-knot steamers required for the carrying out of this contract are not conveyed from port to port at the average rate of the speed specified in clause 5 for the said fifteen-knot steamers, after omitting voyages and deducting delays as provided in the last preceding clause, then, and so often as the same shall happen, the contractors shall furnish to the minister the certified logs of the captains of the steamers showing the causes of the delays, and there shall be deducted from the subsidy payable to the contractors for the said quarter a sum equal to five per cent of such subsidy for every one-quarter knot by which the average speed actually made has fallen below the average speed specified in clause 5 of this contract.

'Provided, however, that for the period between any fifteenth day of December and the following fifteenth day of February when steamers of different classes are employed in the service ,the average rate of speed shall be arrived at by taking the average of the speeds of all the steamers employed in the service during the said period.

'Provided further, that the total amount of the sum deducted in respect of such default or failure of either of the two classes of steamers mentioned in this clause shall not exceed the full amount of the subsidy allowed the said class for the quarter or period in question.

13. 'Subject to the provisions of clause 11 hereof, the other steamers required for the carrying out of this contract, and which may from time to time be approved by the minister as provided in clause 2 hereof, shall when in service be entitled to receive a subsidy which will bear the same proportion to the sum of £1,000 as the actual speed made by the said steamers will bear to the speed of fifteen knots per hour.

14. 'It is further understood and agreed that the tolls to be charged in the way of either freight or passenger rates between ports on both east and westbound trips shall always, under substantially similar circumstances and conditions, be charged equally to all persons, and at the same rate, whether by weight or otherwise, in respect of all traffic of the same description and receiving in carriage the like accommodation; and further, that no toll shall be charged which discriminates against Canadian merchants or shippers or against emigrants to Canada.

15. 'If the contractors comply with the terms of this contract then at the expiration hereof His Majesty will enter into a new agreement with the said contractors for a further period of five years for payment to the contractors of such subsidy as His Majesty may then be prepared to pay to any one, provided the contractors by

such new agreement will then undertake to perform such service as His Majesty may then require during the said new five year term, in such manner and upon such conditions as His Majesty may then prescribe.

Section 28 referred to in section 1, reads as follows:—

28. 'It is declared to be the true intent and meaning of these presents that the minister shall have the right at any time during the continuance of this contract, upon thirty days' notice in writing to the contractors, their successors or assigns, to terminate this contract, and every matter and thing herein contained, if it shall appear to the minister that there has been any breach on the part of the contractors, their successors or assigns, of any of the covenants, agreements, stipulations or provisions herein contained and entered into on the part of the contractors; and it is declared and agreed that the minister shall at all times be the sole and final judge as to whether there has been any such breach, and his decision shall be absolute, final and conclusive.'

Inasmuch as the eighteen knot steamers referred to will not come into the service until August 1, 1907, the service will be run in so far as relates to the time covered by the estimates for the nine months ending March 31, 1907, by the steamers *Victorian, Virginian* and *Tunisian,* and a fourth steamer equal in effective speed and otherwise to the *Tunisian,* and such other steamers as may be approved by the minister, which will presumably be selected from those referred to as having served during the calendar year ended December 31, 1905, and as the descriptions of them all are given above it is not necessary to repeat the same.

The *Victorian, Virginian, Tunisian* with the fourth steamer of equal speed and otherwise to the *Tunisian* are, as will be observed under section 4 of the contract, to perform each ten complete round voyages per annum, or equal to seven and a half voyages each during the nine months covered by the estimates; while the smaller steamers would necessarily have to run nine voyages. This would make the estimated cost for the nine months' service, provided there are no deductions, dependent upon the speed of the smaller vessels as provided for in section 13, or approximately for the nine months' service a possible maximum of over £50,000.

146.

This service as at present run, is under terms of a contract entered into with Messrs. Furness Withy & Company, Limited, of West Hartlepool, England, bearing date, June 30, 1905, and which expires on June 30, 1906. The principal provisions, aside from those common to all contracts, are as follows:—

1. 'The contractors having prior to the date of these presents placed on a route between the city or port of Halifax, in the province of Nova Scotia, and the city or port of St. John's in Newfoundland and the port of Liverpool in England, their steamers the *Ulunda* of 1,096 tons net register, and the *London City* of 1,509 tons net register, and the *Sicily* of 1,131 tons net register; they agree and contract to continue from the first day of July next until the 30th day of June in the year One thousand nine hundred and six to maintain by means of the said steamers or with such other steamers as may be approved by the minister, a regular service between the cities and ports aforesaid, sailing from and returning to each of the terminal ports of Halifax and Liverpool aforesaid at regular intervals of not less frequency than once in every seventeen days, and on such fixed dates as may be sanctioned by the minister, and calling on all voyages at the port of St. Johns in Newfoundland.

2. 'Subject to the further conditions, stipulations and reservations herein provided, His Majesty for himself, his heirs and successors, covenants with the contractors, their successors and assigns, that the contractors and their successors well and faithfully performing all and every the covenants and stipulations herein on the part of the contractors set forth and contained, he will well and truly pay or cause

to be paid to the contractors, their successors or assigns a subsidy at the rate of twenty thousand dollars ($20,000) per annum payable as follows:—

'One-half or ten thousand dollars ($10,000) on the first day of January next following the date of these presents, and the balance, ten thousand dollars ($10,000) on the completion of the service in the year one thousand nine hundred and six.

'Provided, however, that it is the true intent and meaning of these presents that no amount of instalment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the true intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractors shall at least two weeks prior to the first sailing under this contract, furnish to the minister time-tables showing the proposed sailings, and upon the same being approved by the minister, they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted steamer sanctioned by the minister, does not sail from a terminal port as herein specified within three days of the date fixed by such time-tables, there shall be deducted from the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port. Provided, however, that the minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should he for any reason deem it advisable to do so. It being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract, owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions as above from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

4. 'The contractors shall at least three weeks prior to the first sailing under this contract furnish to the minister a schedule of the freight rates proposed to be charged between the different ports on both east and west bound trips, which schedule shall be subject to the approval of the minister, and after being approved by him shall not be changed except with his consent; and the minister may at any time, if he deem it advisable, fix the maximum rates to be charged on any article or class of goods; and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all passengers or freight that may be offered or that can reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the minister, should he deem it advisable to so fix such maximum rates, and in no case shall any discrimination be made as regards rates, or otherwise, directly or indirectly against Canadian merchants or shippers who shall always have precedence for their freight and goods over all other merchants and shippers; and it is agreed and understood that the freight rates on eastbound trips, sailing from Halifax as hereinbefore provided, on through bills of lading to Liverpool from any place in the provinces of Ontario and Quebec or from any Canadian points further west, shall in no case be greater than from the same place to Liverpool via any United States route or port; and on west-bound trips the rates from Liverpool to any place in Ontario or Quebec or other Canadian ports farther west, shall be as favourable as via any United States route or port to the same place; and it is further understood and agreed that the said steamers shall not carry between the ports of Halifax and Liverpool aforesaid, on any voyage run under the terms of this contract, either deals or lumber or timber to a greater extent than fifty per cent

of the total quantity of the cargo carried on such voyage, and such quantity only in case other Canadian products are not offering or cannot be obtained. Provided, however, that in the event of other cargo not being obtainable, satisfactory evidence of that fact being furnished to the minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

5. 'The steamers to be employed as herein specified, shall at all times during the continuance of this contract be fully sea-worthy, well-officered, manned, victualled, equipped, provided and furnished, having regard to the service which the contractors have hereby undertaken to perform; and shall have ample and suitable accommodation for the passengers, mails and freights to be carried over the routes specified; and shall, at all times, carry boats and life-saving appliances in compliance with the law, and shall be in all respects subject to the approval of the minister.

6. 'The contractors shall during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf of or under the direction of the postal authorities of Canada, or of those at the terminal port or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal port or ports of call above referred to; and the expense of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. For the conveyance of all such mails no payment shall be made or required over or beyond the amount of subsidy herein mentioned or provided for.'

The ss. *Ulunda* above referred to as of 1,096 tons net register, was, according to the Mercantile Navy List, built at Linthouse in 1885 of iron and registered at West Hartlepool in 1898. Her length is 275 ft.; breadth, 35 ft.; depth of hold, 23 ft.; net tonnage as above, 1096; gross tonnage, 1717; 200 nominal horse-power.

The ss. *London City,* formerly the *Clan Forbes,* was built at Linthouse in 1882 of iron and registered at West Hartlepool in 1902; length, 324 ft. 5 in.; breadth, 38 ft. 1 in.; depth of hold, 23 ft. 8 in.; net tonnage, 1,509; gross tonnage, 2,367; 350 nominal horse-power.

The ss. *Sicily,* formerly the *Rhenania,* was built at Glasgow in 1881 of iron and registered at West Hartlepool in 1904; length, 286 ft.; breadth, 34 ft. 4 in.; depth of hold, 23 ft. 8 in.; net tonnage, 1,131; gross tonnage, 1,818; 167 nominal horse-power.

The *London City* has since the close of the calendar year 1905, been replaced by the *Dahome,* a vessel formerly on the line, but for two or three years past employed in the West Indian service. The *Dahome* was built at Wallsend in 1891 of steel and registered at West Hartlepool in 1898; length, 300 ft. 6 in.; breadth, 41 ft.; depth of hold, 21 ft. 6 in.; net tonnage, 1,552; gross tonnage, 2,470; 330 nominal horse-power.

The *Sicily* has since been replaced by the *Annapolis,* formerly called the *Capri,* a vessel of 285 ft. in length; breadth, 36 ft.; depth, 24 ft. 3 in.; gross tonnage, 2,037; 265 nominal horse-power.

It will be noted that the *Dahome* and *Annapolis* are larger and better vessels than the *London City* and *Sicily.*

The speed of the various steamers employed in the service is given as twelve knots.

The total number of round voyages run was twenty-four.

There is no cold storage on these steamers.

The distance between Liverpool and Halifax is given as 2,453 miles and the average distance run on the round voyages is given as 5,126 miles, equal to (for the twenty-four trips) a total distance run of 123,024 miles.

The number of passengers carried on the westbound trips—Liverpool to Halifax —was:—first-class, 22; and from St. Johns, Newfoundland, to Halifax, 42; on the eastbound trips—Halifax to Liverpool—32 first-class, and Halifax to St. Johns, Newfoundland, 31.

The amount of subsidy paid for services rendered during the calendar year, 1905, was $20,000.

147.

This service is run only during the winter between St. John and Glasgow by Messrs. Donaldson Bros., of Glasgow, represented by their duly authorized agent, Mr. Robert Reford, partner in the firm of Robert Reford Company, Limited, of Montreal, under terms of a contract bearing date September 1, 1905, and which is only for one season. The provisions of the contract, aside from those common to all contracts, are as follows:—

1. 'The contractors owning and controlling the steamships *Concordia, Alcides, Lakonia, Tritonia* and *Salacia,* all of which are guaranteed by the contractors as rating at Lloyds 100 A1, will place such steamships, and if necessary in order to fulfil the terms of this contract, other steamers of like class and capacity on a route between the port of Glasgow in Scotland and the port of St. John in the province of New Brunswick, and will maintain therewith during the winter season of 1905-1906, a regular weekly service between the said ports until not less than twenty complete round trips have been run, sailing from and returning to each of the ports aforesaid at regular intervals, and on such fixed dates as may be sanctioned by the minister, such dates to be advertised at least twenty days in advance of sailings. Each of the said steamers while employed as aforesaid, shall be run at an average speed of not less than ten knots per hour, extraordinary weather excepted.

2. 'Subject to the further conditions, stipulations and reservations herein provided, His Majesty for himself, his heirs and successors, covenants with the contractors, their successors and assigns, that the contractors and their successors well and faithfully performing all and every the covenants and stipulations herein on the part of the contractors set forth and contained, he will well and truly pay or cause to be paid to the contractors, their successors or assigns a subsidy at the rate of seven hundred and fifty dollars ($750) for each round trip from Glasgow to St. John aforesaid and return therefrom to Glasgow, duly performed, aggregating for the twenty round trips fifteen thousand dollars ($15,000) such subsidy to be payable in two instalments, the first of seven thousand five hundred dollars ($7,500) on the completion of ten full round trips regularly run in compliance with the terms of this agreement, and the balance of equal amount on the completion of the service contracted for.

'Provided, however, that it is the true intent and meaning of these presents that no amount or instalment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the true intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractors shall at least two weeks prior to the first sailing under this contract, furnish to the

minister time-tables showing the proposed sailings, and upon the same being approved by the minister ,they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted steamer sanctioned by the minister does not sail from a terminal port as herein specified within two days of the date fixed by such time-tables, there shall be deducted from the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port. Provided, however, that the minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should he for any reason deem it advisable to do so: It being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract, owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions as above from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

3. 'The contractors shall furnish and establish at their own expense the necessary agents required for the efficient performance of this contract, and shall with diligence, as soon after the completion of each voyage as may be, furnish to the minister full and complete copies of the manifests of the cargoes and lists of passengers carried on each voyage, duly certified by the proper officers of customs, and also such other documents, information and evidence as may be reasonably required by the minister to show the volume, extent and value of the trade carried on by the said steamers, and the full performance on their part of the services, requirements and conditions of this contract, in order to enable him to judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with, within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive;and the furnishing of such certificates, documents and evidence as hereinbefore specified, shall be a condition precedent to the payment of the subsidy herein provided for, or any portion thereof, and if in the opinion of the minister, all the terms of this contract have not been fully complied with by the contractors he may deduct from the subsidy otherwise payable, such portion thereof as he may deem fit and proper, taking into consideration all the circumstances connected therewith, and the contractors shall at all times during the continuance of this contract well and faithfully abide by and conform to all such requirements as may be made by the minister with regard to the said steamers in the performance of this contract.

4. 'The contractors shall at least three weeks prior to the first sailing under this contract furnish to the minister a schedule of the freight rates proposed to be charged between the different ports on both east and west bound trips, which schedule shall be subject to the approval of the minister, and after being approved by him shall not be changed except with his consent; and the minister may at any time, if he deem it advisable, fix the maximum rates to be charged on any article or class of goods; and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all passengers or freight that may be offered or that can reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the minister, should he deem it advisable to so fix such maximum rates,and in no case shall any discrimination be made as regards rates, or otherwise, directly or indirectly against Canadian merchants or shippers who shall always have precedence for their freight and goods over all other merchants and shippers; and it is agreed and understood that the freight rates on east-bound trips, sailing from St. John, New Brunswick, as hereinbefore provided, on through bills of lading to Glasgow, Scotland, from any place in the provinces of

Ontario and Quebec or from any Canadian points farther west, shall in no case be greater than from the same place to Glasgow, via any United States route or port; and on west-bound trips the rates from Glasgow to any place in Ontario or Quebec or other Canadian points farther west, shall be as favourable as via any United States route or port to the same place; and it is further understood and agreed that the said steamers shall not carry between the ports of St. John and Glasgow aforesaid, on any voyage run under the terms of this contract, either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage, and such quantity only in case other Canadian products are not offering or cannot be obtained. Provided, however, that in the event of other cargo not being obtainable, satisfactory evidence of that fact being furnished to the minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

6. 'The contractors shall, during the performance of this contract, convey on each and every trip of the steamer performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamer by or on behalf of or under the direction of the postal authorities of Canada, or of those at the terminal ports or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal ports or ports of call above referred to; and the expenses of carrying such mails from the post offices or railway stations to the steamer and from the steamer to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. This service is performed under terms of a contract entered into on July 10, 1905, with the Ulster Steamship Company, Limited, of Belfast, Ireland, represented in Canada by Messrs. McLean, Kennedy & Company, of Montreal, who run what is known as the Head Line Steamers. It is a winter service only, sailing from St. John, N.B., to Belfast or Dublin at regular intervals averaging two sailings each month until ten complete round trips have been run.

The principal provisions of the contract, aside from those common to all contracts, are as follows:—

1. 'The contractors owning and controlling the steamships *Rathlin Head, Carrigan Head, Bray Head, Ramore Head, Inishowen Head, Bengore Head, Torr Head, Malin Head, Glen Head, Teelin Head, Dunmore Head* and *Glenarm Head,* of the Head Line, all of which are guaranteed as rating at Lloyds 100 A1., will in the month of December next after the date of these presents, or earlier, place such of said steamers as may be necessary to fulfil the terms of this agreement on a route between the port of St. John, N.B., and the ports of Belfast and Dublin in Ireland, and will maintain therewith during the winter season of 1905 and 1906 a service averaging two sailings each month between the said ports, sailing from Belfast or Dublin for St. John aforesaid, and returning thereto, sailing from St. John at regular intervals on such fixed dates as may be sanctioned by the minister, such dates to be advertised at least twenty days in advance of sailings, until not less than ten complete round trips have been run. Each of the said steamers while employed as aforesaid shall on all east bound voyages be run at an average speed of not less than ten knots an hour, extraordinary conditions of the weather excepted. It is understood and agreed that the said steamers are not to call at any intermediate or other port either on the westward or eastward voyages while employed under the terms of this contract, except when on west bound voyages at a port in Great Britain for bunkering purposes, or for cargo for transportation to St. Johns, Newfoundland, or to a Canadian port other than the port of St. John, N.B., aforesaid, the transportation of such cargo and the calling at ports other than St. John, N.B., subject to revocation at the will of the minister; it being understood and agreed that the port of St. John, N.B., shall in all cases be the terminal port on all west bound voyages and the last port of departure on all east bound voyages.

2. 'Subject to the further conditions, stipulations and reservations herein provided, His Majesty for himself, his heirs and successors, covenants with the contractors, their successors and assigns, that the contractors and their successors well and faithfully performing all and every the covenants and stipulations herein on the part of the contractors set forth and contained, he will well and truly pay or cause to be paid to the contractors, their successors or assigns a subsidy at the rate of seven hundred and fifty dollars ($750) for each round trip duly performed from Belfast and Dublin to St. John aforesaid and return therefrom to Belfast or Dublin, aggregating for the ten round trips hereinbefore referred to, the sum of seven thousand and five hundred dollars ($7,500); such subsidy to be payable in two instalments, the

first of three thousand seven hundred and fifty dollars ($3,750) on the completion of five full round trips regularly run in compliance with the terms of this agreement, and the balance of equal amount on the completion of the service contracted for.

'Provided, however, that it is the true intent and meaning of these presents that no amount or instalment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the true intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractors shall at least two weeks prior to the first sailing under this contract, furnish to the minister time tables showing the proposed sailings, and upon the same being approved by the minister ,they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted steamer sanctioned by the minister, does not sail from a terminal port as herein specified within two days of the date fixed by such time tables, there shall be deducted from the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port. Provided, however, that the minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time tables should he for any reason deem it advisable to do so: It being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract, owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract ,or subject the contractors to deductions as above from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

3. 'The contractors shall furnish and establish at their own expense the necessary agents required for the efficient performance of this contract, and shall with diligence, as soon after the completion of each voyage as may be, furnish to the minister full and complete copies of the manifests of the cargoes and lists of passengers carried on each voyage, duly certified by the proper officers of customs, and also such other documents, information and evidence as may be reasonably required by the minister to show the volume, extent and value of the trade carried on by the said steamers, and the full performance on their part of the services, requirements and conditions of this contract, in order to enable him to judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with, within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive; and the furnishing of such certificates, documents and evidence as hereinbefore specified, shall be a condition precedent to the payment of the subsidy herein provided for, or any portion thereof, and if in the opinion of the minister ,all the terms of this contract have not been fully complied with by the contractors he may deduct from the subsidy otherwise payable, such portion thereof as he may deem fit and proper, taking into consideration all the circumstances connected therewith, and the contractors shall at all times during the continuance of this contract well and faithfully abide by and conform to all such requirements as may be made by the minister with regard to the said steamers in the performance of this contract.

4. 'The contractors shall at least three weeks prior to the first sailing under this contract furnish to the minister a schedule of the freight rates proposed to be charged between the different ports on both east and west bound trips, which schedule shall be subject to the approval of the minister, and after being approved by him shall not

be changed except with his consent; and the minister may at any time, if he deem it advisable, fix the maximum rates to be charged on any article or class of goods; and the contractors shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, all passengers or freight that may be offered or that can reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the minister, should he deem it advisable to so fix such maximum rates, and in no case shall any discrimination be made as regards rates, or otherwise, directly or indirectly against Canadian merchants or shippers who shall always have precedence for their freight and goods over all other merchants and shippers; and it is agreed and understood that the freight rates on eastbound trips, sailing from St. John as hereinbefore provided, on through bills of lading to Dublin or Belfast from any place in the province of Ontario and Quebec or from any Canadian points farther west, shall in no case be greater than from the same place to Dublin or Belfast via any United States route or port; and on westbound trips the rates from Dublin or Belfast to any place in Ontario or Quebec or other Canadian points farther west, shall be as favourable as via any United States route or port to the same place; and it is further understood and agreed that the said steamers shall not carry between the ports of St. John and Dublin or Belfast aforesaid, on any voyage run under the terms of this contract either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage, and such quantity only in case other Canadian products are not offering or cannot be obtained. Provided, however, that in the event of other cargo not being obtainable, satisfactory evidence of that fact being furnished to the minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

6. 'The contractors shall during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned service, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf of or under the direction of the postal authorities of Canada, or of those at the terminal port or ports of call herein referred to, and shall deliver all such mails at the proper destinations at the terminal port or ports of call above referred to; and the expense of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance ofthis contract in connection with the postal service. For the conveyance of all such mails no payment shall be made or required over or beyond the amount of subsidy herein mentioned or provided for.

This service is run the year round by Messrs. Provided, however, that the minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should he for any reason deem it advisable to do so; it being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract, owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions as above from the amount of the subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

7. 'The contractor shall furnish and establish at their own expense the necessary agents required for the efficient performance of this contract, and shall with diligence, as soon after the completion of each voyage as may be, furnished to the minister full and complete copies of the manifest of the cargoes and lists of passengers carried on each voyage, duly certified by the proper officers of customs, and also such other documents, information and evidence as may be reasonably required by the minister to show the volume, extent and value of the trade carried on by the said steamers, and the full performance on their part of the services, requirements and conditions of this contract, in order to enable him to judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with, within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive; and the furnishing of such certificates, documents and evidence as hereinbefore specified, shall be a condition precedent to the payment of the subsidy herein provided for, or any portion thereof, and if in the opinion of the minister, all the terms of this contract have not been fully complied with by the contractors he may deduct from the subsidy otherwise payable, such portion thereof as he may deem fit and proper, taking into consideration all the circumstances connected therewith, and the contractors shall at all times during the continuance of this contract well and faithfully abide by and conform to all such requirements as may be made by the minister with regard to the said steamers in the performance of this contract.

Provided, however, that in the event of other cargo not being obtainable, satisfactory evidence of that fact being furnished to the minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

This service is in one sense run under the terms of the Act of Confederation, which provided that a steam service should be maintained between Victoria and San Francisco, which at that time was the only mode of travel or of transportation of mails; but for some years past the necessity for the service as a mail route has ceased to exist as letter mails are invariably carried by rail and it is only small quantities of newspapers and similar matter that is carried by the steamers.

For the past few years the service has been performed by the Pacific Coast Steamship Company under practically the same terms as the contract with Messrs. Goodall, Perkins & Co., of San Francisco, which was entered into on the 8th day of June, 1901, and expired on June 30, 1902. The principal provisions of this contract, aside from those common to all contracts, were as follows:—

1. 'The contractors will on the first day of July next after the date of these presents place on a route between the city or port of San Francisco aforesaid and the city or port of Victoria, in the province of British Columbia, their steamships the *Umatilla* and the *City of Puebla*, and will maintain therewith or with such other steamships of like power, speed and capacity as may be approved by the minister during the further continuance of this contract, a regular service between the cities or ports aforesaid, sailing from and returning to each at intervals of not less frequency than seven days.

'This contract shall, unless sooner terminated under conditions hereinafter contained, continue in force until the thirtieth day of June, nineteen hundred and two; and shall be subject to renewal at the option of the minister.

2. 'Subject to the further conditions, stipulations and reservations herein provided, His Majesty for himself, his heirs and successors, covenants with the contractors, their successors and assigns, that the contractors and their successors well and faithfully performing all and every the covenants and stipulations herein on the part of the contractors set forth and contained, he will well and truly pay or cause to be paid to the contractors, their successors or assigns, a subsidy of five thousand dollars per annum payable on completion of the service in each year;

'Provided, however, that in the event of failure on the part of the contractors in any respect to perform the service herein contracted to be performed, or any portion thereof, a proportionate deduction shall be made from the subsidy in respect of the service not performed; and provided further that if any expense shall be incurred by His Majesty for the conveyance of mails between the points herein mentioned as terminal ports or ports en route by reason of neglect on the part of the contractors to perform the said service or any portion thereof then all such expense so incurred shall be deducted from the subsidy herein agreed to be paid, and provided further, and it is the true intent and meaning of these presents, that none of the instalments of subsidy herein agreed to be paid shall become payable until the contractors shall have furnished to the minister properly certified and authentic vouchers and documents, showing to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the said service herein agreed to be performed has been fully, completely and faithfully executed and performed according to the true intent and meaning of these presents; and provided also that no amount or instalment of subsidy shall be payable at any time unless it appears to the satisfaction of the minister that up to the time of such payment there has been no breach on the part of the contractors of any of the covenants, provisions or stipulations of this contract, and that the decision of the minister in that regard shall be absolute, binding, final and conclusive upon the contractors, their successors and assigns.'

4. 'The contractors shall during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf of or under the direction of the postal authorities of Canada, or of those at the terminal port or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal port or ports of call above referred to; and the expense of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. For the conveyance of all such mails no payment shall be made or required over or beyond the amount of subsidy herein mentioned or provided for.'

'Subject to the further conditions, stipulations and reservations herein provided, His Majesty, for himself, his heirs and successors, covenants with the contractors, their successors and assigns, that the contractors and their successors well and faithfully performing all and every the covenants and stipulations herein on the part of the contractors set forth and contained, he will well and truly pay or cause to be paid to the contractors, their successors or assigns a subsidy at the rate of thirty-five thousand dollars ($35,000) per annum payable as follows: one quarter, or the sum of eight thousand seven hundred and fifty dollars ($8,750) during the month of October, 1905; one quarter, or eight thousand seven hundred and fifty dollars ($8,750) during the month of January, 1906; one quarter, or eight thousand seven hundred and fifty dollars ($8,750) during the month of April, 1906; and the balance of eight thousand seven hundred and fifty dollars ($8,750) on the completion of the service on the first day of July, 1906;

Provided, however, that the minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should he for any reason deem it advisable to do so: it being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract, owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions as above from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

and meaning thereof, and his decision in that respect shall be binding, final and conclusive; and the furnishing of such certificates, documents and evidence as hereinbefore specified, shall be a condition precedent to the payment of the subsidy herein provided for, or any portion thereof, and if in the opinion of the minister, all the terms of this contract have not been fully complied with by the contractors he may deduct from the subsidy otherwise payable, such portion thereof as he may deem fit and proper, taking into consideration all the circumstances connected therewith, and the contractors shall at all times during the continuance of this contract well and faithfully abide by and conform to all such requirements as may be made by the minister with regard to the said steamers in the performance of this contract.

Provided, however, that in the event of other cargo not being obtainable, satisfactory evidence of that fact being furnished to the minister, then the contractors shall be allowed to make up the balance of the cargo with deals, boards or timber.

'7. The contractors shall during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf of or under the direction of the postal authorities of Canada, or of those at the terminal port or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal port or ports of call above referred to: and the expense of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractors, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. This service is performed under the terms of a contract entered into with Richard A. Alley, of Vancouver, B.C., dated December 28, 1905, and which expires on the completion of three full years' service. The principal provisions, aside from those common to all contracts, are as follows:—

1. 'The contractor being the owner of or having control of the steamship *Africander* of 2,742 tons gross register, and other steamers, will therewith within three months from the date hereof or with steamships of like class, rating, and of not less capacity, approved by the minister, establish a regular service between the port of Vancouver, in the province of British Columbia, and the ports of Auckland, Wellington, Littleton, Dunedin and Bluff, in the colony of New Zealand, such service to commence by one of the said steamers sailing from one of the said ports in New Zealand for Vancouver within three months from the date of the signing of the New Zealand agreement, to be followed by the other two months later, the first one sailing on the return from Vancouver within two months next following the date of the first sailing from New Zealand to be followed by the other two months later, and to so continue sailing from both terminal ports at intervals of two months during the continuance of this contract, with the option on the part of the contractor of calling on all or any trips at Fiji, and with the further option of also calling at the port of Victoria, in British Columbia, on any or all trips run.

2. 'It is understood and agreed that in so far as the above named ports in New Zealand are concerned, calls shall be made on each trip at three of them alternating as occasion may require, and with the option on the part of the contractor of calling at other New Zealand ports when found necessary, such further calls, however, not to interfere with the regular running of the service, or the sailing from New Zealand on such dates as may be fixed in terms hereinafter provided.

3. 'It is understood and agreed that should the traffic over the route named so increase as to warrant the putting on of larger steamers or of sailing the steamers more frequently than hereinbefore provided, the contractor is to furnish and run such steamers or such more frequent service, always subject to the approval of the minister as to sailing dates and conditions, without, however, any additional subsidy being payable than that hereinafter provided.

4. 'Subject to the further conditions, stipulations and reservations herein provided, His Majesty for himself, his heirs and successors, covenants with the contractors, their successors and assigns, that the contractors and their successors well and faithfully performing all and every the covenants and stipulations herein on the part of the contractors set forth and contained, he will well and truly pay or cause to be paid to the contractors, their successors or assigns a subsidy at the rate of ten thousand pounds sterling (£10,000) per annum, payable in five instalments of one thousand

and six hundred pounds (£1,600) each, on the completion of each of five full round voyages; and the balance of two thousand pounds (£2,000) on the completion of a year's service as herein contracted for; and in like manner and like instalments during each year's continuance of this contract ;

'Provided, however, that it is the true intent and meaning of these presents that no amount or instalment of subsidy shall be payable or be paid at any time, unless it appears to the satisfaction of the minister that up to the time of such instalment becoming due, as herein stipulated, the service herein described and defined has been fully and faithfully performed, and that all provisions and stipulations as to freight and freight rates and dates of sailing have been in all respects faithfully observed and carried out, according to the true intent and meaning of these presents; and it is understood and agreed to be a further condition of these presents that the contractors shall at least two weeks prior to the first sailing under this contract, furnish to the minister time-tables showing the proposed sailings, and upon the same being approved by the minister, they shall be duly advertised in such manner as he may direct; and it is also agreed that in case either of the steamers herein named, or a substituted steamer sanctioned by the minister, does not sail from a terminal port as herein specified within six days of the date fixed by such time-tables, there shall be deducted from the amount of subsidy payable for such voyage a sum equal to one-tenth of the amount otherwise payable for the performance of such voyage, and so in proportion for further delays or failure to sail from such terminal port. Provided, however that the minister may authorize any vessel to sail either at an earlier or a later date than that specified in such time-tables should he for any reason deem it advisable to do so: it being understood and agreed that, in the event of any of the said steamers being at any time so disabled as to be obliged to be docked for repairs, the failure to perform the terms of this contract, owing to such accident and for the time reasonably occupied in the repair of the damaged steamer, shall not be taken as a default or breach of the stipulations of this contract, or subject the contractors to deductions as above from the amount of subsidy, if any, payable for any voyage delayed in consequence of such docking for repairs, but there shall be no claim for nor payment of any subsidy in respect of any voyage not actually performed.

5. 'The contractor shall furnish and establish at his own expense the necessary agents required for the efficient performance of this contract, and shall with diligence, as soon after the completion of each voyage as may be, furnish to the minister full and complete copies of the manifests of the cargoes carried on each voyage, duly certified by the proper officers of customs, and also such other documents, information and evidence as may be reasonably required by the minister to show the volume, extent and value of the trade carried on by the said steamers, and the full performance on their part of the services, requirements and conditions of this contract, in order to enable him to judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive; and the furnishing of such certificates, documents and evidence as hereinbefore specified shall be a condition precedent to the payment of the subsidy herein provided for, or any portion thereof; and if in the opinion of the minister, all the terms of this contract have not been fully complied with by the contractor, he may deduct from the subsidy otherwise payable such portion thereof as he may deem fit and proper, taking into consideration all the circumstances connected therewith; and the contractor shall at all times during the continuance of this contract well and faithfully abide by and conform to all such requirements as may be made by the minister with regard to the said steamers in the performance of this contract.

6. 'The contractor shall at least three weeks prior to the first sailing under this contract furnish to the minister a schedule of the freight rates proposed to be charged between the different ports on both north and south bound trips, which schedule shall be subject to the approval of the minister, and after being approved by him shall not

be changed except with his consent; and the minister may at any time, if he deem it advisable, fix the maximum rates to be charged on any article or class of goods ; and the contractor shall carry between the ports hereinbefore named, on all voyages of the said steamships employed under the terms of this contract, freight that may be offered or that can reasonably be procured, at rates which shall not be in excess of such maximum rates as fixed by the minister, should he deem it advisable to so fix such maximum rates, and in no case shall any discrimination be made as regards rates or otherwise, directly or indirectly, against Canadian merchants or shippers who shall always have precedence for their freight and goods over all other merchants and shippers; and it is agreed and understood that the freight rates shall in no case be greater than the ordinary rates via any United States route or port on the Pacific; and it is further understood and agreed that the said steamers shall not carry between the terminal ports aforesaid, on any voyage run under the terms of this contract, either deals or lumber or timber to a greater extent than fifty per cent of the total quantity of the cargo carried on such voyage, and such quantity only in case other products are not offering or cannot be obtained. Provided, however, that in the event of other cargo not being obtainable satisfactory evidence of that fact being furnished to the minister, then the contractor shall be allowed to make up the balance of the cargo with deals, boards or timber.

8. 'The contractor shall during the performance of this contract, convey on each and every trip of the steamers performing the aforementioned services, both on outward and homeward voyages, all such mails as shall be tendered to the proper officers or persons in that behalf on the said steamers by or on behalf of or under the direction of the postal authorities of Canada, or of those at the terminal port or ports of call herein referred to, and shall deliver all such mails at their proper destinations at the terminal port or ports of call above referred to; and the expense of carrying such mails from the post offices or railway stations to the steamers and from the steamers to the post offices or railway stations at the terminal ports and at the ports of call shall be borne by the contractor, who will be subject to all general and special regulations now or hereafter existing during the continuance of this contract in connection with the postal service. For the conveyance of all such mails no payment shall be made or required over or beyond the amount of subsidy herein mentioned or provided for.

10. 'The expression "mails" for the purpose of this contract shall be deemed to mean and include all boxes, bags, baskets or packets of or containing letters, postcards, newspapers, parcels, books or printed papers, and all other articles which under the Post Office Act and postal regulations for the time being in force are transmissible by post in Canada, without regard to place either of origin or destination, and also all empty bags, empty boxes and other receptacles, stores and articles used or to be used in carrying on the post office service or which shall ordinarily be sent by or to or from the post offices as qualified by clause 21 of this agreement.

20. 'It is understood and agreed that when other cargo is not available, the steamers employed in the service may call at a port or ports in Australia and at Honolulu to load and discharge cargo; provided always that such additional call or calls shall not be of such a character as to prevent the steamer taking up her sailing date at the appointed time from a terminal port; and it is further understood that any such variation from the usual direct route shall not be made in manner to compete with the subsidized service between Canada and Australia.

21. 'It is understood and agreed that in case of any loss or damage to "mails" (as defined by clause 10) being caused by negligence or want of proper care on the part of the contractor, his agents or servants, the maximum liability incurred and of penalty enforceable shall be limited to an amount not exceeding the subsidy payable in respect of the voyage on which such loss or damage occurred.

22. 'It is understood and agreed that penalties will not be enforced against the contractor: if it be shown that the delay in being ready to proceed to sea or to comply with any other terms of this contract has arisen without neglect or default of the

contractor, his agents or servants, or by act of God, the King's enemies or other force majeure.

23. 'It is understood and agreed that in the event of one of the contractor's steamers having started on her voyage and the minister shall decide to terminate this contract for any cause or reason beyond the control of and not being the fault of the contractor, the said steamer shall be deemed to have earned the subsidy for the voyage on which she has sailed.

24. 'This contract shall not nor shall any right or interest therein be assigned without the consent in writing of the minister to such assignment having been first obtained.

25. 'It is a condition of these presents that no member of the House of Commons of Canada shall be admitted to any share or part of this contract or agreement nor to any benefit to arise therefrom.

26. 'The minister may authorize any change or changes in the terms of this contract as may not be inconsistent with the vote providing for the payment of the subsidy.

27. 'The minister shall at all times be the judge as to whether the terms of this contract have been or are being fully and faithfully carried out and complied with within the true intent and meaning thereof, and his decision in that respect shall be binding, final and conclusive.

28. 'It is further conditioned, understood and agreed that this contract is subject to the granting by the New Zealand government of a like yearly subsidy to that hereinbefore provided, failing which this agreement is to be null and void from the time such New Zealand subsidy ceases.

29. 'This contract shall terminate on the completion of three full years' service unless sooner terminated under the provisions of sections 18, 19 or 28 hereof.'
